

# SHELTERMAKER TOUR

MARCH-APRIL 2013

Presentations, Talks & Workshops

# sheltermaker.com

Peter Cowman is Sheltermaker.

He reminds us that we have forgotten how to shelter ourselves, leaving us exposed to a market which ruthlessly exploits this vulnerability.

But all is not lost!

By awakening our instincts we can live our sheltermaker dreams - and in the process discover who we really are!

'Inspiring' 'Practical' 'Empowering'

## ECO-BUILDING ON A SHOESTRING

A presentation by Sheltermaker, Peter Cowman  
Thursady March 14th 7.30pm

West Wing 9, University College Cork

- in the centre of campus, just off the quad.

How does one approach the question of low-cost eco-building design and construction?

How can I avoid having a mortgage?

What are the realities of self-building?

What skills are needed?

Can one study and build at the same time?

What about planning issues?

How easy is it to make electricity?

These and many other questions will be answered in this presentation which will include illustrations of low-cost eco-buildings, including a green, low-impact sustainable shelter called **The EconoSpace** that can be made on a shoestring budget [from **€5000 upwards!**] in the average backyard without planning permission!

€5 Donation €3 Students

An excellent opportunity to learn the secrets of Sheltermaking from the man who dreamed it all up in the first place - Peter Cowman.
